MEMORANDUM FOR: Chief of Logistics

SUBJECT : Transportation of Automobiles to Ports of Embarkation

1. Colonel White has asked me to request of you information as to the present arrangements for transporting private employee-owned vehicles to ports of embarkation--both in connection with the attached claim and as a general principle.

2. In this connection Colonel White notes that the Army requires individuals to effect deliveries to ports of embarkation themselves. He asks:

- a. Are we doing this?
- b. Should we do this?
- c. Are we accepting full responsibility for individuals' automobiles if we deliver them ourselves or are we simply providing the employees assistance at their own risk?
- d. If we are providing them assistance at their own risk, do we make this clear to them?

3. If the present system should be changed in any way, Colonel White asks that you take the necessary action and that you bring it to him in proper form for his approval.

4. If investigation of this matter will delay the expeditious processing of the attached claim, will you return the claim with enough information to act on it.
